

SOUMYAKANTA BERA

Junior Data & Business Analyst | Analytics · Business Intelligence · Reporting
Milan, Italy · +39 347 924 9860 · bera.soumyakanta@yahoo.com
Available immediately | linkedin.com/in/soumyakantabera
Valid Italian study residence permit - convertible to an employee work permit, outside the quota system

PROFILE

MSc Finance & Risk Management graduate with an applied toolkit in **Power BI** (DAX, data modelling), **SQL, Python and advanced Excel** - ETL pipelines, dashboards, data visualisation and management reporting on inventory, working-capital, margin and cash-flow KPIs. Business-intelligence and statistical analysis on a dataset of **279 listed firms across 14 countries** (MSc thesis). Skilled in requirements gathering, functional analysis, as-is/to-be process mapping, and translating messy data into decision-ready reporting. English C1, Italian B1 (certified); **available immediately.**

EXPERIENCE

M&A Analyst Intern | Valdonica SRL, Tuscany, Italy | Oct 2024 - Dec 2024

- Prepared KPI summaries and competitor benchmarking data used in due-diligence materials
- Analysed revenue, margin and key business drivers, translating findings into structured Excel and PowerPoint reporting packs
- Supported data organisation and validation for multi-year financial projections and scenario analysis

PROJECTS

Automated ETL & Business KPI Dashboard | Independent project

- Gathered and formalised business requirements; mapped the as-is process (~3 hours of manual data prep) and designed the to-be solution with source-to-target mapping across 3 sources
- Built a Python/SQL ETL pipeline and a Power BI dashboard (10 metrics, trend and exception views)
- Produced functional documentation, functional testing and data validation; cut data-prep time to under 20 minutes

MSc Thesis - Inventory Buildup as an Early-Warning Signal | DOI: 10.2139/ssrn.7082778

- Built a Python/Excel/FactSet pipeline across 3,055 firm-years, 279 listed firms, 14 countries and 13 sectors
- Built a Power BI Stress Score dashboard with 0-4 risk flags, peer benchmarks, KPI views and data-quality checks for finance reporting and performance monitoring

Budget-vs-Actual Variance & KPI Reporting Pack | Independent project

- Defined reporting requirements and 12 KPIs; built an Excel/Power BI budget-vs-actual pack with variance bridges, cutting management-pack prep from ~4 hours to ~30 minutes

SKILLS

BI & Analytics: Power BI (transferable to Qlik and Tableau), DAX, Power Query, data modelling, SQL, Python, pandas, NumPy, ETL/data cleaning, data quality, data visualisation, business intelligence, KPI dashboards, statistical analysis
Business & Process Analysis: Requirements gathering and analysis, functional analysis, gap analysis, as-is/to-be analysis, solution design, functional documentation, stakeholder reporting, process improvement
Office, Excel & Reporting: Microsoft Office (Word, Excel, PowerPoint), advanced Excel, PivotTables, Power Pivot, XLOOKUP, management reporting packs, SharePoint, Copilot, ChatGPT (prompting)
Finance Context: FP&A reporting, management control, budgeting/forecasting, variance analysis, P&L/margin analysis, working capital, cash flow
