Valid Italian study residence permit - convertible to an employee work permit, outside the quota system

PROFILE

MSc Finance & Risk Management graduate (July 2026, University of Florence) with internship experience in **M&A valuation**: DCF/comps modelling, P&L reviews, KPI summaries and competitor benchmarking. Hybrid finance and data profile: built an independent **FP&A budget-vs-actual reporting pack** (12 KPIs), an **ETL pipeline with a Power BI dashboard** and an early-warning risk model on **279 listed firms in 14 countries**. Suited to junior roles in financial analysis, FP&A, controlling, credit, data analysis and business analysis. English C1, Italian B1 (certified); **available immediately.**

EXPERIENCE

M&A Analyst Intern | Valdonica SRL, Tuscany, Italy | Oct 2024 - Dec 2024
- Supported DCF and comps modelling with multi-year projections, scenarios, capex and sensitivity tables
- Prepared P&L reviews, KPI summaries and competitor benchmarking for due-diligence packs and senior-management presentations (Excel, PowerPoint)
- Analysed revenue, margin and key business drivers to support valuation

PROJECTS

Budget-vs-Actual Variance & KPI Reporting Pack | Independent project
- Defined reporting requirements and 12 KPIs; built an Excel/Power BI pack with variance analysis and actual-vs-plan variance bridges
- Reduced management-pack preparation time from ~4 hours to ~30 minutes

Automated ETL & Business KPI Dashboard | Independent project
- Gathered business requirements, mapped as-is/to-be and source-to-target across 3 sources; built a Python/SQL ETL pipeline and a Power BI dashboard (10 metrics)
- Produced functional documentation, functional testing and data validation; cut data prep from ~3 hours to under 20 minutes

MSc Thesis - Inventory Buildup as an Early-Warning Signal | DOI: 10.2139/ssrn.7082778
- Built a Python/Excel/FactSet pipeline across 3,055 firm-years, 279 listed firms, 14 countries and 13 sectors; panel statistics (fixed effects, clustered errors, placebo tests)
- Found 17.1% vs. 12.6% margin-distress incidence in high-stress firm-years; built a Power BI Stress Score dashboard with 0-4 risk flags

SKILLS

Finance & FP&A: FP&A reporting, management control, budgeting/forecasting, variance analysis, budget vs. actual, financial statement analysis, P&L/margin analysis, working capital, cash flow, DCF/comps, IFRS, month-end close support, cash forecasting, past-due monitoring
Credit & Risk: quantitative risk indicators, panel statistical analysis, peer benchmarking, early-warning signal design, risk monitoring
Data, BI & Business Analysis: business intelligence and data visualisation in Power BI (DAX, Power Query, data modelling; transferable to Qlik and Tableau), SQL, Python (pandas, NumPy), ETL and data quality, KPI dashboards, requirements gathering, functional analysis, as-is/to-be, functional testing
Office & Excel: Microsoft Office (Word, Excel, PowerPoint), advanced Excel, PivotTables, Power Pivot, XLOOKUP, financial models, scenario/sensitivity analysis, management and stakeholder reporting packs, SharePoint, Copilot, ChatGPT (prompting)
Finance Operations & ERP: order-to-cash and purchase-to-pay cycles, reconciliations, cost/management accounting, basic ERP knowledge (SAP, Gestionale)
